II. HNVF BACKGROUND AND GOALS

The City of San José anticipates receiving \$250 million over a 25-year period from the national settlement with tobacco companies. In March 2000, the City Council approved the Mayor's recommendation to use these funds for investing in "healthy neighborhoods for future generations," hereafter referred to as the Healthy Neighborhoods Venture Fund (HNVF). The City Council directed Administration to distribute funds through a public competitive process using the following allocation categories:

- 1) Tobacco-Free Community/Health
- 2) Education/Health
- 3) Senior Services/Health

An Advisory Committee made up of three (3) Councilmembers and four (4) members of the community was formed to assist in the review of applications for the Healthy Neighborhoods Program and make annual recommendations to the City Council for the expenditure of the funds. HNVF funding was first awarded in January 2001.

The HNVF Program utilizes a targeted approach to funding projects. Projects that align with and contribute toward achieving goals outlined in the strategic work plans associated with adopted City of San José Master Plans in each of the three funding categories are encouraged and given funding priority (e.g., the Youth Services Master Plan, *A Blueprint for Bridging the Digital Divide*, San José's Early Care and Education Strategic Plan, *Investing in the Future*, City of San José Aging Services Master Plan). Linkages to other locally recognized strategic work plans and/or master plans are also encouraged. The City's Strategic Plans can be reviewed in the HNVF office at PRNS.

AMOUNT AVAILABLE FOR ALLOCATION

The City receives approximately \$10 million in HNVF funds each year. From this amount, the City Council has approved funding priority for two projects as well as HNVF program administration for the 2006-2007 fiscal year. These projects are:

1. The Homework Centers project
2. Children's Health Initiative project

In the 2005-2006 fiscal year, funds allocated to these projects and HNVF program administration totaled approximately \$5 million. Although funding priority has been awarded to these projects, 2006-2007 fiscal year funding amounts for these projects have not been set. Funding amounts will be decided in conjunction with the City's budget decisions. The remaining amount available for allocation in the 2006-2007 fiscal year is dependent on these budget decisions.

Funds available will be allocated in accordance with the allocation guideline adopted by the City Council. Twenty-five percent (25%) of available funds will be allocated to projects that address

needs in the Tobacco-Free Community/Health category, twenty-five percent (25%) will be allocated to projects that address needs in the Senior Services/Health category, and fifty percent (50%) to projects that address needs in the Education/Health category. **Applicants must select a primary category for their application.**

ANTI-TOBACCO COMPONENT REQUIREMENT

To be considered for funding, all proposed projects in the Education/Health and Senior Services/Health categories must include an anti-tobacco component. Acceptable anti-tobacco projects are those that have a significant impact on the target population. Distribution of information (such as handing out pamphlets, displaying posters, or hosting lectures) is not a sufficient anti-tobacco activity. Anti-tobacco activities should be hands-on and should have a direct impact on participants.

HNVF GOALS, IMPACT AREAS, AND LONG-TERM OUTCOMES

The HNVF goals, impact areas, and long-term outcomes are listed on the following page. Proposed projects must address one of the three impact areas and align with the HNVF goal and long-term outcomes for that goal.

HNVF GOALS, IMPACT AREAS AND LONG-TERM OUTCOMES RELATED TO HEALTH AND SAFETY

Technical Assistance will be provided from October 18, 2005 through December 1, 2005. Applicants who choose to have an HNVF Analyst review a draft of their application, must submit the draft for review no later than Monday, November 28, 2005 at 12:00 P.M.

VII. PROPOSAL EVALUATION CRITERIA AND PROCESS

City staff, category experts, and the HNVF Advisory Committee will review and evaluate completed proposals. In evaluating eligible projects, the criteria listed below will be used to assess eligible projects and to recommend projects for funding. Each proposal will be assessed on how well the project will address each criterion. The assessment a project receives will be based on the information provided in the application.

PHASE 1

Screening for Eligibility includes verification of the following eligibility requirements:

- a) Eligible Applicant – Applicants must be a government entity, a non-profit agency with a 501(c)(3) status, a for-profit agency with proof of business status and a license to do business in San José, or a recognizable association of people with a Fiscal Agent who agrees to abide by the City's grant agreement on behalf of the association. A Fiscal Agent must meet all eligibility requirements.
- b) Eligible Category – Proposals must align with one or more of the three HNVF funding categories: Tobacco-Free Community/Health, Senior Services/Health, or Education/Health.
- c) Eligible Activity – Proposed activity must align with the examples listed on pages 9-14.
- d) Eligible Clientele - Clients to be served by the proposed project must be San José residents.
- e) Completeness of project proposal, including budget, budget narrative, and budget broken down by activity.

This year, only service-related projects will be considered for funding. Physical improvement projects (construction projects) will not be funded.

PHASE 2

Pre-Screening and Rating of Proposals

City staff will rate all proposals that have met and passed the pre-screening criteria. Staff will apply the Rating Scale to each proposal, record the ratings, and submit the ratings to the HNVF Advisory Committee for consideration. Applicants will be provided an opportunity to review and correct factual errors in the analysis prior to the Ratings Presentation meeting of the HNVF Advisory Committee on March 22, 2006.

Screening for Capacity includes a determination of whether the proposed project aligns with the focus of the category in which the proposed project qualifies (Needs), an evaluation of the applicant's ability to successfully implement a proposed project (Capacity to Achieve Results), and the applicant's overall track record of accomplishing goals in a timely manner (Operational Performance).

Screening for Leverage includes a determination of whether the proposed project demonstrates a minimum 20% cash match. The leverage shown on the original application will be used for the pre-screening. The cash match may include the documented cash value of donated rent or utilities, but may not include other in-kind donations. Applications not meeting the minimum 20% cash match requirement will not be considered for funding. Leverage percentage is calculated by dividing the total of the Other Funds (Leverage) column by the total of the Total Project Cost column on Form E – Budget (Column 7 divided by Column 8).

Proposed projects that are not in alignment with the focus of the category for which they are applying, applicants who have not met the eligibility criteria, applicants who have not demonstrated the capacity to achieve the desired results, applicants who do not meet the minimum leverage requirement, and applicants who do not have a track record of accomplishing goals will not be considered for funding and will not move forward in the evaluation process. Applicants will be notified in writing if their proposal will not be considered for funding, including the reason why the application will not be considered. Applicants may appeal a negative determination. Please refer to the attached Appeals Process.

The following is a two-pronged rating system for proposed projects:

- A. Pre-Screening: A Two-Point Rating Scale consisting of “Yes” and “No” will be used to evaluate and limit the applications to be considered for funding. Only those applications demonstrating alignment with the focus of each category (Needs), the capacity to achieve desired results (Capacity to Achieve Results), and an overall track record of accomplishing goals (Operational Performance), and a minimum 20% cash match (Leverage) on the original application will be considered for funding. Applicants that receive a “No” rating have not demonstrated that a successful project can be implemented. **Projects receiving a “No” rating on any one of the pre-screening criteria will not be considered for funding.** Applicants will be notified in writing that their application will not be considered for funding, including the reason why their application will not be considered. Applicants may appeal a negative determination. Please refer to the attached Appeals Process.

- B. Proposal Rating: Applications moving beyond the pre-screening phase will be rated. A Three-point Likert Scale of Low – Medium – High will be used to rate the following evaluation criteria:
1. Project Design;
 2. Work Plan;
 3. Project Outcomes;
 4. Leverage; and
 5. Past Performance with the HNVF Program.

Proposed projects will be funded based primarily on the rating received. Although the rating is the primary basis for the decision to fund a project, it is emphasized once again that a high rating does not guarantee funding. Other indicators such as geographic equity of services, service gaps that require immediate attention, maintenance of vital services to minority populations, and under-funded services may be considered.

Rating Criteria	Description	Rating Type
Project Design	Proposed service is explained, clearly described and includes the location of services, number of clients served, and hours of operation. Demonstrates how it impacts the community need identified.	<p>High: Applicant described the project design very clearly and in detail. All answers to questions in this section were clearly identified. The rationale for the project design is reasonable for the need the applicant is addressing.</p> <p>Medium: Applicant adequately described the project design, but description may be somewhat lacking in detail or clarity. Most answers to questions in this section were clearly identified. Some questions were not answered or not fully answered. The rationale for the project design is reasonable for the need the applicant is addressing.</p> <p>Low: Applicant does not adequately describe the project design. The questions in this section were not clearly answered and/or the rationale for the project design does not match the needs the applicant is trying to address.</p>

Rating Criteria	Description	Rating Type
Work Plan	Illustrates an achievable work plan for the proposed project, with reasonable goals, performance measures, and activities to obtain the stated results.	<p>High: Applicant's proposed work plan very clearly illustrates the activities described in the project design section and the performance measures stated in the Project Outcomes section. The work plan is completed with all the requested information. All activities described in the project design are listed in the work plan with reasonable goals. The performance measures listed are consistent with those described in the project outcomes section.</p> <p>Medium: Applicant's proposed work plan adequately illustrates the activities described in the project design section and the performance measures stated in the Project Outcomes section. The work plan may be missing the long-term outcomes and/or performance measures. The work plan activities are not entirely consistent with those described in the project design section.</p> <p>Low: Applicant's proposed work plan does not adequately illustrate the activities described in the Project Design section and the performance measures stated in the Project Outcomes section. The work plan is not complete AND/OR is inconsistent with the details described in the project design or project outcomes sections.</p>

Rating Criteria	Description	Rating Type
Project Outcomes	<p>States quantifiable intermediate performance measures that are realistic and have clearly defined measurement methodology.</p> <p>A performance measure differs from an activity measure in that a performance measure demonstrates a measurable change in behavior, situation or condition.</p>	<p>High: Applicant presents an intermediate performance measure that is clearly stated and measures the intended results of the project. There is a very clear connection between the performance measures, the services provided, and the needs addressed. Performance measures are quantifiable and supported by clear measurement methods.</p> <p>Medium: Applicant does not present an intermediate performance measure that clearly measures the intended results of the project; there is a slight connection between the performance measure, the services provided, and the needs addressed, but the performance measure does not clearly demonstrate a behavior, situation, or condition change; <i>or</i> the performance measure is not quantifiable and measurable or is not supported by clear measurement methods.</p> <p>Low: Applicant does not present an intermediate performance measure that measures the intended results of the project; there is no clear connection between the performance measure, the services provided, and the needs addressed; <i>and</i> the performance measure is not quantifiable and measurable or is not supported by clear measurement methods.</p>

Rating Criteria	Description	Rating Type
Leverage	Demonstrates substantial leveraging of funding sources. Demonstrates strong collaborative relationships with other entities and/or coordinates proposed services with City departments or other key players. Documented value of donated or subsidized rent and/or utilities may be included in cash match.	<p>High: More than 50% cash match or more than 50% cash match plus other diversified funding base, in-kind leverage, and/or collaboration (working jointly with another entity) that results in increased, expanded, or enhanced services and/or expanded target population.</p> <p>Medium: 36-50% cash match or 36-50% cash match plus other in-kind leveraging and/or coordination (regular information sharing and communication with other community service entities) that demonstrates proposed expanded services or new services have been developed with existing services in mind.</p> <p>Low: 20-35% cash match.</p>

Rating Criteria	Description	Rating Type
Past Performance in the HNVF Program	During the previous two cycles, project was conducted as described in the contract; project goals were met; and reports and documents were submitted in a timely manner.	<p>High: Agency complied with all terms of contracts and received prior written approval for all changes that require prior written approval. Agency met or exceeded all goals; no unresolved issues at monitoring visits; all reports and documents submitted within timeframe. X. APPEALS PROCESS

PURPOSE

BACKGROUND

In situations where disagreements may arise between the City staff and the applicant regarding determinations, the formal appeals process set forth below is available and should be utilized.

Any negative decisions by City staff regarding the application for HNVF funds must be in writing. The decision must state the rationale and cite the reasons for the determination. It must advise the applicant of the applicant's right to appeal the decision.

POLICY

It is the policy of the City that appeals to decisions made by the City staff regarding the application must be in writing and within five (5) working days of receipt of the determination. The appeals must state that it is an appeal, identify what the problem is, what portion of the application is being addressed, what the applicant wants to be done, what effect a decision other than that desired would have on the project or the applicant, and any information that would assist in making a decision.

It is the policy of the City that responses to the appeal will be made by the Director of Parks, Recreation and Neighborhood Services (PRNS) and one designated HNVF Committee member within ten (10) working days from receipt of the appeal. The response will be made in writing and will provide the rationale if the response is not that desired by the applicant. Donated or subsidized rent or utilities may be assigned a dollar value, providing the appropriate documentation of its cash value accompanies this application.

Instructions:

List all other funds to be used for this project that have been received or the applicant expects to receive and then list other in-kind resources that will be used to support the project. In the last column on the right, provide the level of commitment for all resources, using one the following terms: received, projected, and pending. Do not include this grant request on the resource table. The total funds on the resource table should match the “other funds” total on the budget attachment.

Level of Commitment Definitions:

Received: Funds on hand or a firm commitment for funding (requires an agreement or letter confirming funding).

Projected: Anticipated renewal of existing funding or a realistic projection of fees, donations, and other revenues based on prior year actuals.

Pending: Funds have been applied for and are likely to be received. (NOTE: only include amounts that the agency reasonably expects to receive.)

Cash match may include the documented cash value of donated or subsidized rent or utilities, but may not include other in-kind donations. If the resource table includes the cash value of donated or subsidized rent or utilities, the applicant must attach the appropriate documentation to this application. For donated or subsidized utilities, the required documentation is a copy of the utility bill for the property in question. This documentation must be submitted at the time of application in order for rent or utilities to be included in the resource table.
